WHAT'S NEW

Security

☐ Password-protected Session

- Password-protected session enables the local SmarTeam administrator to prevent the running of unauthorized scripts that connect to the SmarTeam environment in order to -
 - Access secured files in the vault (Retrieve / Delete / Add operations)
 - Execute any operation through SmarTeam API on the SmarTeam database and Configuration settings

The Security Configuration tool enables the administrator to encrypt the selected password used by developers and defined in System Configuration.

For more information, refer to SmarTeam – Editor online help, *Session Management Service > Password-protected session* section.

Licensing

☐ New License Server of Dassault Systemes (DSLS)

- Two licensing options are installed automatically as part of the SmarTeam installation process: Dassault System License Server (DSLS) and IBM License Use Management (LUM). DSLS, which is defined as the default licensing mechanism, provides all the functionalities previously provided by LUM.

For more information, refer to *Introduction to SmarTeam Installation*.

ENHANCEMENTS

SmarTeam – Editor

Windows client (SmarTeam – Editor):

- ☐ **Reorder Tab option in the Form Designer Edit menu**
 - A new option, *Reorder Tab*, enables the SmarTeam administrator to change the order in which Profile Card tabs are displayed. This option has been added to the Form Designer *Edit* menu.
- ☐ **Lookup Tables list is sorted alphabetically**
 - The lookups in the Lookup Tables list is now sorted alphabetically by default, enabling users to find lookups quickly.

Web-based client (SmarTeam – Web Editor):

- ☐ **Workflow *History Tab* new attributes**
 - The Workflow *History* tab, by default, contains new attributes: instead of the *From* attribute, the *Login*, *First Name* and *Last Name* attributes now appear. In addition, the SmarTeam administrator can configure the attributes that will be displayed for all users.
For more information, refer to SmarTeam – Web Editor online help, *SmarTeam – Web Editor Administration > Workflow Process* section.
 - In the *Notes* tab, the name of the user who created the node will be visible, according to the preferences set for user class definitions.

SmarTeam – Navigator

- ☐ Same as SmarTeam – Editor, Web-based client

SmarTeam – BOM

- ☐ **Define Configuration View on Item in Composed Of Tab**
 - In BOM Editor, user can select which Configuration View to display in the *Composed Of* tab.
