

*Enterprise Software Profile Bundle -  
Release Notes  
V1.3*

*Enterprise Software Profile Bundle -  
Release Notes  
V1.3*

---

## Chapter 1. Preface

Welcome to the IBM® Security Access Manager for Enterprise Single Sign-On AccessProfile bundle for Enterprise Software Profiles.

This release note contains information about the following AccessProfile that was not available when the IBM Security Access Manager for Enterprise Single Sign-On manuals were published: Enterprise Software Profile.

This package contains the following AccessProfiles:

- IBM Lotus Notes
- IBM Cognos Business Intelligence
- IBM Filenet
- IBM Personal Communications
- SAP GUI for Windows
- IBM Lotus Sametime Connect
- Oracle E-Business Suite

**Note:** You must install AccessAgent version 8.2.0.0543 or later before using the AccessProfiles with IBM Security Access Manager for Enterprise Single Sign-On 8.2.

---

## Chapter 2. New Features

The following table describes the new features included for the individual AccessProfiles:

*Table 1. List of new features*

| Profile Name                     | APAR        | Description                                                                     |
|----------------------------------|-------------|---------------------------------------------------------------------------------|
| IBM Lotus Notes                  | None        | None                                                                            |
| IBM Cognos Business Intelligence | None        | None                                                                            |
| IBM Filenet                      | None        | None                                                                            |
| IBM Personal Communications      | None        | None                                                                            |
| SAP GUI for Windows              | MR111111947 | SAP Profile change password does not work when ShowShadowBorder is not enabled. |
| IBM Lotus® Sametime® Connect     | None        | None                                                                            |
| Oracle E-Business Suite          | None        | None                                                                            |

---

## Chapter 3. Closed Issues

The following table describes the closed issues related to the individual AccessProfiles:

*Table 2. List of closed issues*

| Profile Name                     | APAR    | Description                                                                                 |
|----------------------------------|---------|---------------------------------------------------------------------------------------------|
| IBM Lotus Notes                  | IZ99483 | The Lotus Notes® profile loops when wrong credentials are entered.                          |
| IBM Cognos Business Intelligence | None    | None                                                                                        |
| IBM FileNet                      | None    | None                                                                                        |
| IBM Personal Communications      | None    | None                                                                                        |
| SAP GUI for Windows              | IV02248 | The SAP profile with Group and Server configuration does not work as expected.              |
|                                  | IV00807 | AccessAgent does not prompt the user to log on again when initial SAP Password has expired. |
|                                  | IV00357 | SAP Profile Language Field is not required for SAP.                                         |
| IBM Lotus Sametime Connect       | None    | None                                                                                        |
| Oracle E-Business Suite          | None    | None                                                                                        |

---

## Chapter 4. Known Issues

The following table describes the known issues for the individual AccessProfiles:

*Table 3. List of known issues*

| Profile Name                     | APAR         | Description                                                                          |
|----------------------------------|--------------|--------------------------------------------------------------------------------------|
| IBM Lotus Notes                  | Internal     | Built-in Sametime credentials are captured without validation.                       |
| IBM Cognos Business Intelligence | None         | None                                                                                 |
| IBM Filenet                      | None         | None                                                                                 |
| IBM Personal Communications      | Internal     | Reinjection does not occur after failed logon.                                       |
|                                  | Internal     | Only English platform is supported.                                                  |
| SAP GUI for Windows              | Internal     | Logon using uninstalled language is not supported.                                   |
|                                  | Internal     | Changing the password using su01 or other transactions after logon is not supported. |
|                                  | MR0524117132 | An overview of the SAP session is not available when AccessAgent is enabled.         |
|                                  | MR0531116759 | The SAP <b>Change Password</b> error message closes automatically.                   |
| IBM Lotus Sametime Connect       | None         | None                                                                                 |
| Oracle E-Business Suite          | None         | Java Form login is not supported.                                                    |

---

## Chapter 5. Installation

### Prerequisite

Any existing AccessProfile that is uploaded to the IMS™ Server must be deleted before uploading this AccessProfile. Make sure that you delete any existing AccessProfile to avoid an AccessProfile loading error.

### Installation Instructions

See the IBM Security Access Manager for Enterprise Single Sign-On Installation Guide available at: <http://publib.boulder.ibm.com/infocenter/tivihelp/v2r1/index.jsp?topic=/com.ibm.itamesso.doc/ic-homepage.html> for more details.

---

## Chapter 6. Compatibility Matrix

This section describes the supported operating systems, browsers, applications, and other components for the AccessProfiles:

| Operating System                                                                                                                                       | Product and component version                                                                                   | Independent software vendor product version                                                                                                                                                                                                                                               |
|--------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| IBM Lotus Notes                                                                                                                                        |                                                                                                                 |                                                                                                                                                                                                                                                                                           |

## Chapter 9. Notices

This information was developed for products and services offered in the U.S.A. IBM may not offer the products, services, or features discussed in this document in other countries. Consult your local IBM representative for information on the products and services currently available in your area. Any reference to an IBM product, program, or service is not intended to state or imply that only that IBM product, program, or service may be used. Any functionally equivalent product, program, or service that does not infringe any IBM intellectual property right may be used instead. However, it is the user's responsibility to evaluate and verify the operation of any non-IBM product, program, or service. IBM may have patents or pending patent applications covering subject matter described in this document. The furnishing of this document does not give you any license to these patents. You can send license inquiries, in writing, to:

IBM may have patents or pending patent applications covering subject matter described in this document. The furnishing of this document does not give you any license to these patents. You can send license inquiries, in writing, to:

IBM Director of Licensing  
IBM Corporation  
North Castle Drive  
Armonk, NY 10504-1785  
U.S.A.

For license inquiries regarding double-byte (DBCS) information, contact the IBM Intellectual Property Department in your country or send inquiries, in writing, to:

Intellectual Property Licensing  
Legal and Intellectual Property Law  
IBM Japan, Ltd.  
1623-14, Shimotsuruma, Yamato-shi  
Kanagawa 242-8502 Japan

The following paragraph does not apply to the United Kingdom or any other country where such provisions are inconsistent with local law:

INTERNATIONAL BUSINESS MACHINES CORPORATION PROVIDES THIS PUBLICATION "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

Some states do not allow disclaimer of express or implied warranties in certain transactions, therefore, this statement might not apply to you.

This information could include technical inaccuracies or typographical errors. Changes are periodically made to the information herein; these changes will be incorporated in new editions of the publication. IBM may make improvements and changes in the products and the programs described in this publication at any time without notice.

Any references in this information to non-IBM Web sites are provided for convenience only and do not in any manner serve as an endorsement of those Web sites. The materials at those Web sites are not part of the materials for this IBM product and use of those Web sites is at your own risk.

IBM may use or distribute any of the information you supply in any way it believes appropriate without incurring any obligation to you.

Licensees of this program who wish to have information about it for the purpose of enabling: (i) the exchange of information between independently created programs and other programs (including this one) and (ii) the mutual use of the information that has been exchanged, should contact:

IBM Corporation  
224A/101  
11400 Burnet Road  
Austin, TX 78758  
U.S.A.

Such information may be available, subject to appropriate terms and conditions, including in some cases, payment of a fee.

The licensed program described in this document and all licensed material available for it are provided by IBM under terms of the IBM Customer Agreement, IBM International Program License Agreement or any equivalent agreement between us.

Any performance data contained herein was determined in a controlled environment. Therefore, the results obtained in other operating environments may vary significantly. Some measurements may have been made on development-level systems and there is no guarantee that these measurements will be the same on generally available systems. Furthermore, some measurement may have been estimated through extrapolation. Actual results may vary. Users of this document should verify the applicable data for their specific environment.

Information concerning non-IBM products was obtained from the suppliers of those products, their published announcements or other publicly available

sources. IBM has not tested those products and cannot confirm the accuracy of performance, compatibility or any other claims related to non-IBM products. Questions on the capabilities of non-IBM products should be addressed to the suppliers of those products.

All statements regarding IBM's future direction or intent are subject to change or withdrawal without notice, and represent goals and objectives only.

All IBM prices shown are IBM's suggested retail prices, are current and are subject to change without notice. Dealer prices may vary.

This information is for planning purposes only. The information herein is subject to change before the products described become available.

This information contains examples of data and reports used in daily business operations. To illustrate them as completely as possible, the examples include the names of individuals, companies, brands, and products. All of these names are fictitious and any similarity to the names and addresses used by an actual business enterprise is entirely coincidental.

#### COPYRIGHT LICENSE:

This information contains sample application programs in source language, which illustrate programming techniques on various operating platforms. You may copy, modify, and distribute these sample programs in any form without payment to IBM, for the purposes of developing, using, marketing or distributing application programs conforming to the application programming interface for the operating platform for which the sample programs are written. These examples have not been thoroughly tested under all conditions. IBM, therefore, cannot guarantee or imply reliability, serviceability, or function of these programs. You may copy, modify, and distribute these sample programs in any form without payment to IBM for the purposes of developing, using, marketing, or distributing application programs conforming to IBM's application programming interfaces.

#### TRADEMARKS

IBM, the IBM logo, and [ibm.com](http://ibm.com)<sup>®</sup> are trademarks or registered trademarks of International Business Machines Corp., registered in many jurisdictions worldwide.
