

Agfa HealthCare

Company overview: The Agfa-Gevaert Group develops, produces and distributes an extensive range of analog and digital imaging systems and IT solutions, mainly for the printing industry and the healthcare sector, as well as for specific industrial applications.

Web site: www.agfa.com/en/co/index.jsp

Core competency: IMPAX® (PACS), ORBIS® (Clinical Information System) Name of Application / Product(s) that interoperate with DR550: IMPAX DRAPI®

Any prerequisites [opt.]: AIX 5.3, System Storage Archive Manager 5.3.6

Operating environments supported

AIX®	Linux®	OS/400®	OS/390®	Microsoft® Windows®	Sun® Solaris®	HP-UX®	Novell® Netware®
x							

Product description: IMPAX DRAPI® : Event based Retention of PACS data that migrates seldom accessed images to more cost-effective and/or specialized LTO4/WORM storage targets – resulting in more efficient utilization of expensive DSstorage resources (Online/Offline ratio)

DR550 supports data migration needed by long medical retention periods of 30 and more years trough Tivoli based Archive Management

Supported geos: Europe, Middle East, Africa

Supported region:

Headquarters location: Bonn, Germany

Compelling differentiation: DRAPI Interface : better integration of IMPAX EE and DR550 provides retention needed for medical workflow and small cost for longterm archiving
