

Key Information Systems

Company overview: Key Information Systems, Inc. is a systems integrator and IBM Premier Business Partner. We have one goal: to design and protect architectures that make your business more profitable. That means providing corporate infrastructure architecture for Business continuity, Storage , and E-business solutions. Since 1995, we have delivered affordable and scalable solutions for today's fast-paced business environment by integrating business strategies with infrastructure engineering. Today, we provide a complete range of products and services to clients from Internet start-ups to Fortune 500 companies.
